

INTRODUCTION

This 2012 Annual Report and 2013 Annual Plan are submitted by *tw telecom holdings inc.* ("*tw telecom*") to the Public Utilities Commission of California ("CPUC") pursuant to Sections 8281-8286 of the Public Utilities Code and Sections 9 and 10 of General Order 156 ("GO 156").

tw telecom is committed to actively identifying, encouraging business opportunities for, purchasing products and services from, and growing *tw telecom's* base of Women, Minority and Disabled Veteran Business Enterprises ("WMDVBE") pursuant to GO156. *tw telecom* has an established nationwide federal Small & Diverse Business Subcontracting Plan pursuant to FAR 19.704 and FAR clause 52.219-9.

As a provider of telecommunications services whose gross annual revenue exceeds \$25 million, *tw telecom* recognizes its obligation to provide the CPUC with annual detailed and verifiable plans concerning its WMDVBE procurement in all categories. In order to accomplish the objectives and requirements set forth in GO156, *tw telecom* identified areas that differ from its federal and other state plans that require a focused effort and re-alignment of *tw telecom's* Supplier Diversity program in 2013 and beyond. *tw telecom's* Supplier Diversity Team and employees are excited about the opportunity to continue to improve its Supplier Diversity program and increase its WMDVBE spend.

tw telecom continues to focus on communicating with its Supplier base, strengthening its ability to expand ongoing business with WMDVBE vendors, and expanding its Supplier Diversity program within California. Communication improvements include tw telecom's internal and external website updates, which deliver Supplier Diversity training and information that contribute to spend and purchasing decisions affecting California and other local markets nationwide. Communication improvements on tw telecom's company WMDVBE goals and objectives were instituted by updating the external company web page, updating the internal company web page to give all employees access to the company's diversity plans, policies, and suppliers, enforcing tw telecom's Tier 2 program and updating the company's Supplier Certification Form. New suppliers must complete a Supplier Certification Form on which they represent their business size. structure, classification and diversity certification status. *tw telecom* is benefiting from the "Procure to Pay" v9.1 PeopleSoft upgrade that enhanced the company's ability to capture Supplier Diversity information in its vendor files beginning in 2012. tw telecom updated its vendor database in 2011 to reflect suppliers' WMDVBE status, and anticipates issuing another update request in 2014-2015. As part of tw telecom's financial system, automated workflow functionality is used to route all purchases in excess of \$100,000 for buyer review to ensure that diverse suppliers were provided the opportunity to support the business requirement.

For 2012, *tw telecom* revised its Procurement Policy with a heightened emphasis on and awareness of the need to solicit business from WMDVBEs. *tw telecom* will continue to expand and update its employees' awareness of WMDVBE opportunities and methods to identify new WMDVBE suppliers. *tw telecom's* Diversity Administrator continued to work with the local market teams to further engage them in the goal making process, to train them on new and available tools to identify diverse resources (both on *tw telecom's* internal webpage and on external resources such as the CPUC's Clearinghouse), and to familiarize them with GO156 and the associated plan requirements. *tw telecom* is focused on expanding its successes, improving any weaknesses, and making sure that those individuals who are in a position to make purchasing decisions understand and follow through on the company's commitment to supplier diversity. The objective of *tw telecom's* diversity training is to ensure that the Procurement Organization, Regional Leadership, and Local Offices are all armed with the appropriate resources, information, and tools to identify and award business to diverse sources of supply.

In 2013, *tw telecom* will place more emphasis on establishing partnerships with local Small Business Administrations and Ethnic Chambers to identify additional opportunities for expanding its local spending and community participation in local events. Additionally, *tw telecom* will review its internal templates (i.e., RFx, Purchase Order and Agreements) and update language as may be necessary to support communications to its suppliers related to *tw telecom's* commitment to its diversity program.

tw telecom is committed to building a strong base of diverse suppliers. Supporting the diverse supplier community is the right thing to do for the company, the communities it serves, and its customers.

GO156, §9 2012 ANNUAL REPORT

9.1.1 DESCRIPTION OF WMDVBE PROGRAM ACTIVITIES ENGAGED IN DURING THE PREVIOUS CALENDAR YEAR. THIS DESCRIPTION SHALL INCLUDE BOTH INTERNAL AND EXTERNAL ACTIVITIES.

Internal Activities

Training and Education

In 2012. tw telecom continued providing formal training and education on the new PeopleSoft Financials v9.1 system functionality. This training was delivered as a company-wide requirement to persons involved in the selection of suppliers and purchasing decisions. The training was a part of the overall review and re-education on the company's Procure to Pay policy and process requirements. The training reinforced the company's Supplier Diversity, Due Diligence and Procurement Policies and explained the new PeopleSoft Financials automated controls. Field Sales, Engineering, and Operations leaders as well as corporate Procurement, Contracting, Purchasing, Engineering, Operations, IT, and Accounting personnel received this training via targeted webcasts, conference calls and a web based training tool. Many of these groups develop national standards, companywide specifications, and make purchasing decisions that affect all of the company's local markets. By targeting these groups. the company helps drive a larger percentage of tw telecom's spending toward diverse enterprises. Ensuring that these groups are constantly aware of changes to the company's supplier diversity goals, understand tw telecom's commitment to meeting state and federal WMDVBE objectives, and are trained on the opportunities to more easily identify WMDVBE suppliers, means they can more effectively implement the company's goals.

This training remains a requirement for on-boarding purchasing decision makers within the field organizations, Sales, Offer Management and other corporate departments. Follow-on/reinforcement training was provided through emails, conference calls and knowledge sharing sessions.

Employee Communication

In 2012, *tw telecom* maintained and updated its internal website through which all employees gain access to the company's diversity plans, policies, existing diverse supplier list and potential diverse suppliers bid list. This company website (iMatrix) helped increase small and diverse supplier opportunities by providing decision makers with access to new and expanded bidder lists as well as lists of diverse vendors currently in use and available for new bids.

Information was also posted to the site, and updated throughout the year, for those employees wishing to attend minority business enterprise opportunity workshops and trade fairs. Additionally, *tw telecom* sent targeted email correspondence to, and had market specific discussions with, field organizations to raise awareness of upcoming Supplier Diversity event opportunities and reinforce plan requirements for the year.

Data Quality and Reporting

In 2012, *tw telecom* continued its efforts to improve the company's WMDVBE data quality by maintaining its existing vendor records and loading new vendor records with diversity information. *tw telecom* is now using the enhancements that were instituted as part of the v9.1 PeopleSoft upgrade to the company's Accounts Payable and Reporting system which went live January 3, 2012. These enhancements are helping the company set meaningful goals, track accomplishments, review credible vendor spend data, and fully validate the WMDVBE program's success.

In addition to implementing and utilizing improved reporting capabilities, *tw telecom* sought to improve the accuracy of its vendor data by contacting over 9,000 vendors in its Accounts Payable database to request up-to-date diversity information and diversity certification status. This required multiple mailings, emails, and personal follow-up which occurred throughout 2011 and continued in 2012. *tw telecom* continues to maintain and improve vendor information as well as develop reports to consistently meet varying federal, state, and local reporting requirements.

Procurement Processes

The Supplier Diversity Team continued to meet with representatives of key corporate departments including Accounting, Legal, Engineering, Program Management, Finance, and Accounting, as well as representatives of Field Organizations including Sales and Operations, to improve processes and approaches that more seamlessly incorporate the identification, inclusion, and selection of diverse suppliers into the company's operations. The team also assessed methods to best identify varying needs of the soliciting entities so that the Supplier Diversity Team can more quickly evaluate and implement those requirements. In many respects, the actual training of employees, outreach, and identification and use of diverse suppliers is the least complicated portion of tw telecom's program. Meeting the challenges of reporting the company's goals, objectives and progress in a manner that satisfies many differing entities' reporting requirements across the country can be complex and consume time that the company would rather use for outreach and development. tw telecom's ongoing objective is to consolidate the solicitation, ordering and reporting efforts and processes to make them more efficient so that the company can focus more time on expanding the diverse supplier base. In that vein, as part of the PeopleSoft Financials v9.1 implementation, tw telecom instituted an automated workflow that routes all orders in excess of \$100k for buyer review and validation of supplier diversity due diligence. Submission of justification supporting the award of business to a non-diverse supplier is required as part of this workflow and due diligence process. Reporting fields were reevaluated and updated to help streamline the quarterly analysis and annual reporting processes.

Other activities included maintaining and revising language in all of the company's RFP/Bid and Contract documents to ensure that the most up-to-date disclosure requirements and flow down provisions are included.

Tier 2 Program

tw telecom continued to improve upon its Tier 2 reporting criteria. The company recognizes the importance of tracking this spend and developing WMDVBE business through its prime contractors. Throughout 2012, **tw telecom** worked principally with its large, non-diverse, high-spend suppliers to enhance its Tier 2 reporting process and tools by educating them on the need for diversity in their supply chains and requesting reports quarterly to reflect their direct and indirect diverse spend. As **tw telecom** continues to expand its Tier 2 program, increased participation in future annual reports is anticipated.

tw telecom continues to identify and implement new opportunities and expand business with WMDVBE subcontractors as a result of work with prime contractors. While supporting the Tier 2 program, tw telecom has identified opportunities to provide suppliers with guidance on becoming certified as a diverse supplier or expanding their company's diversity opportunities. Additionally, tw telecom continues to engage its prime contractors in discussions on partnering opportunities for their diverse authorized resellers to provide services to tw telecom. These options are continuing to expand.

External Activities

Business Organization Involvement.

- **tw telecom** is a member of and involved with the Rocky Mountain Minority Supplier Development Council ("SDC").
- The company attended WMDVBE Business Opportunity Workshops, Minority Business Enterprise Seminars and Trade Fairs.
- The company attended Minority, Women-owned, and other diverse business/procurement conferences including the SDC Business Opportunity Fair and seminars related to WMDVBE opportunities and the Supplier Diversity Development Roundtable.
- **tw telecom** intends to participate in upcoming seminars and tradeshows offered by the RMMSDC, Ethnic Business Associations and/or Ethnic Chambers.

Technical Assistance/Capacity Building

tw telecom is not of the same size and scale as those companies that have proactive Technical Assistance and Capacity Building programs and therefore does not have separate expenditures in this regard. **tw telecom** will continue its outreach through participation in supplier diversity networking events, seminars, and conferences and in its daily course of business by educating new diverse suppliers on how to navigate its approved-vendor set up

processes and existing suppliers on how to grow their opportunities with tw telecom.

9.1.2 A SUMMARY OF WMDVBE PURCHASES AND/OR CONTRACTS, WITH BREAKDOWNS BY ETHNICITY, PRODUCT AND SERVICE CATEGORIES COMPARED WITH TOTAL UTILITY CONTRACT DOLLARS AWARDED TO OUTSIDE VENDORS IN THOSE CATEGORIES.

Note: tw telecom's contracts are generally set-up for use company-wide. This table represents the number ofvendors with master agreements currently in place with WMDVBEs in CA and the associated spend in CA against such vendors.

tw telecom does not have a reporting mechanism in place currently to capture WMDVBE Vendors with majority Workforce in CA. The capability will be researched further during 2013.

As **tw telecom's** Tier 2 program expands and more vendors participate the total Sub numbers will increase, as can be seen in the difference in numbers reported for 2011 vs 2012.

9.1.3 AN ITEMIZATION OF WMDVBE PROGRAM EXPENSES PROVIDED IN THE FORMAT REQUIRED BY ATTACHMENT A TO D.95-12-045.

Expense Category	Description	2012 Actuals
Wages	Salary and payroll related costs of employees working on WMDVBE matters.	\$172,838
Other Employee Expense	Office space, travel, and other non-wage costs	\$11,174
Program Expenses & Training	Printing, postage, supplies, outreach, and other costs directly related to programs including costs related to training employees (internal) and suppliers (external)	\$11,500
Reporting Expenses	Computer, accounting, printing and other expenses in preparing reports to CPUC.	\$500
Consultants and Contractors	Costs of hiring consultants and contractors to assist with WMDVBE program.	\$0
Other	Miscellaneous costs that do not fit in other categories.	None Identified
Total		\$196,012

9.1.4 A DESCRIPTION OF PROGRESS IN MEETING OR EXCEEDING SET GOALS AND AN EXPLANATION OF ANY CIRCUMSTANCES THAT MAY HAVE CAUSED THE UTILITY TO FALL SHORT OF ITS GOALS.

This is *tw telecom's* third year submitting an annual report in the format prescribed by GO156. The following are a summary of the company's 2010, 2011 and 2012 California results:

Category	2010 Dollars	2010 %	2011 Dollars	2011 %	2012 Dollars	2012 %
Minority Men	\$1,906,422	22.0%	\$2,789,981	13.6%	\$3,141,231	8.8%
Minority Women Minority Business	\$74,919	.0%	\$393,832	1.9%	\$503,872	1.4%
Enterprises (MBE) Women Business Enterprises (WBE) Subtotal Women,	\$1,807,583 \$74,919	0.0%	\$2,713,169 \$389,085	13.3%	\$3,176,2995 \$443,017	1.4%
Minority Business Enterprise (WMBE) Service Disabled	\$1,882,503	22.0%	\$3,103,255	15.2%	\$3,619,315	10.2%
Veteran Business Enterprise (DVBE) Total WMDVBE	\$0 \$1,981,341	0.0% 23.0%	\$81,558 \$3,183,813	0.4% 15.6%	\$25,788 \$3,645,103	.1% 10.3%

9.1.5 A SUMMARY OF PRIME CONTRACTOR UTILIZATION OF WMDVBE SUBCONTRACTORS.

This is *tw telecom's* third year reporting Tier 2 spend. *tw telecom* is continuing to examine methods to best validate vendor data, reporting, and compliance.

TIER 2 WMDVBE	2010 Spend	2011 Spend	2012 Spend
Asian	\$71,090	\$5,753,371	\$31,216,973
Black American	\$ -	\$753,577	\$62,768,570
Hispanic	\$20,005	\$2,787,970	\$36,340,912
Native American	\$4,917	\$131,772	\$291,963
Total MBE (from 9.1.2 above)	\$13,779,389	\$25,062,839	\$3,176,300
WBE	\$2,819,934	\$5,059,727	\$48,192,521
DVBE	\$5,400	\$75,963	\$1,890,019

9.1.6 A LIST OF WMDVBE COMPLAINTS RECEIVED DURING THE PAST YEAR, ACCOMPANIED BY A BRIEF DESCRIPTION OF THE NATURE OF EACH COMPLAINT AND ITS RESOLUTION OR CURRENT STATUS.

tw telecom did not receive any WMDVBE complaints in 2012.

9.1.7 A SUMMARY OF PURCHASES AND/OR CONTRACTS FOR PRODUCTS AND SERVICES IN EXCLUDED CATEGORIES.

tw telecom's understanding is that the GO 156 Ruling on November 14, 2003, ended the exclusion category. **tw telecom** does not exclude any product/service category from its purchase base other than those specifically stated in General Order 156, Section 8 such as payments to other utilities, government fees and taxes.

9.1.8 A DESCRIPTION OF ANY EFFORTS MADE TO RECRUIT WMDVBE SUPPLIERS OF PRODUCTS OR SERVICES IN PROCUREMENT CATEGORIES WHERE WMDVBE UTILIZATION HAS BEEN LOW, SUCH AS LEGAL AND FINANCIAL SERVICES, FUEL PROCUREMENT, AND AREAS THAT ARE CONSIDERED HIGHLY TECHNICAL IN NATURE.

A significant factor in *tw telecom's* low WMDVBE utilization is that a significant portion of the company's spend is in the area of network equipment and software. *tw telecom* reviews this area regularly and continues to seek new WMDVBE entrants in this area. Several suppliers explained, however, that the high level of ongoing capital investment required by most network equipment and software companies is a deterrent to new entrants and is the reason that almost all current vendors in this area are publicly held companies.

tw telecom is committed to providing increased opportunities for diverse businesses in low utilization categories. In those cases where **tw telecom** is challenged by supply chain realities that may impede the ability to buy directly from WMDVBE suppliers, the company uses the Tier 2 program to expand supplier diversity efforts. In 2012, **tw telecom** expressed its desire to primary contractors that they continue to utilize, make new awards, and report spending with diverse suppliers in fulfillment of their contracts. An example of **tw telecom's** efforts to include

its prime suppliers in the Tier 2 program is found in its external Supplier Diversity webpage located at http://www.twtelecom.com/support-information/legal-information/supplier-diversity-policy/. *tw telecom's* reporting process, validation, and data consolidation was designed to augment existing efforts to increase meaningful business opportunities for diverse suppliers. The company's spend with Tier 2 suppliers that have strong diversity programs is substantial and reflected in this report. As the Tier 2 reporting program matures, *tw telecom* is realizing growth in diverse spending through its partners.

9.1.9 UTILITIES SHALL RETAIN ALL DOCUMENTS AND DATA THEY RELY ON IN PREPARING THEIR WMDVBE ANNUAL REPORT FOR THE LONGER OF EITHER THREE YEARS OR IN CONFORMANCE WITH THE UTILITIES' INDIVIDUAL DOCUMENT RETENTION POLICIES, AND SHALL PROVIDE THESE DOCUMENTS AND DATA TO THE COMMISSION UPON REQUEST.

Understood.

9.1.10 EACH UTILITY WHICH ELECTS TO REPORT FUEL PROCUREMENT SEPARATELY MUST FILE WITH THE EXECUTIVE DIRECTOR BY MARCH 1 OF EACH YEAR, BEGINNING IN 1991, A SEPARATE DETAILED AND VERIFIABLE REPORT ON WMDVBE PARTICIPATION IN FUEL MARKETS. THESE REPORTS MUST INCLUDE, AT A MINIMUM, THE RESULTS OF PURCHASES IN EACH FUEL CATEGORY. UTILITIES SHALL REPORT RENEWABLE AND NONRENEWABLE ENERGY PROCUREMENT IN A MANNER SIMILAR TO THEIR REPORTING OF FUEL PROCUREMENT.

tw telecom is not reporting fuel procurement separately.

tw telecom is evaluating the ability to report renewable and nonrenewable energy procurement for future plans. **tw telecom** is not reporting renewable and nonrenewable procurement separately in the 2013 plan.

GO156, §10 2013 ANNUAL PLAN

10.1.1 SHORT, MID, AND LONG TERM GOALS SET AS REQUIRED BY SECTION 8, SUPRA

tw telecom uses historical information from prior years, anticipated company spend for the coming plan year, knowledge of major initiatives and opportunities, and input from key corporate departments, regional leadership, and local management in establishing its annual goals and objectives. While economic factors and influences outside the company's control affect overall purchasing decisions, *tw telecom* anticipates continued improvement upon goals and the resulting accomplishments year over year.

A summary of tw telecom's goals are as follows:

Term Goal	MBE	WBE	DVBE
Short Term (2013)	13.5%	2%	.5%
Mid Term (2015)	14%	3%	1%
Long Term (2018)	15.5%	5%	1.5%

The stated goals are not legally enforceable requirements or quotas of any kind and failure to meet or exceed them, or any other portion of this plan, is not subject to any penalty.

10.1.2 A DESCRIPTION OF WMDVBE PROGRAM ACTIVITIES PLANNED FOR THE NEXT CALENDAR YEAR. THIS DESCRIPTION SHALL INCLUDE BOTH INTERNAL AND EXTERNAL ACTIVITIES

In 2013, *tw telecom* plans to expand its California Supplier Diversity Program and extend greater accountability to the California business units, leadership, and local employees who are closest to daily spend and purchasing decisions. In establishing its 2013 goals, objectives, and plan, *tw telecom's* Supplier Diversity and Procurement personnel worked jointly with the Regional Vice Presidents, General Managers and Operations Directors in the California markets to identify opportunities to expand the use of WMDVBE vendors.

In order to meet its 2013 goals, *tw telecom* has established the following *internal* activities:

1. Local Goals and Objectives.

In order for any program to be effective in 2013, *tw telecom* believes that goals and objectives must be established at the grassroots level within the company to ensure success. While *tw telecom* has established supplier diversity goals and objectives at a national level, the company has become increasingly aware that components of those goals must be applied to each individual market for them to be meaningful. In 2013, the Supplier Diversity Team, Procurement Department, and Local Management will, through collaborative planning and implementation sessions, continue efforts to reinforce the Supplier Diversity goals for each of the California markets that will contribute to *tw telecom's* overall 2013 Plan. This reinforcement process will engage, challenge, and establish local accountability to identify new and diverse sources of supply for employees who make purchasing decisions.

2. Training and Education.

In addition to updated training for *tw telecom's* key corporate departments, targeted refresher training will continue to be communicated to the California management and employees. *tw telecom* recognizes that not only must the management team and employees be knowledgeable about the WMDVBE program, they must also be well versed and familiar with the necessary supplier diversity "tools" to succeed. It is *tw telecom's* objective to ensure that the WMDVBE goals and objectives are clearly communicated and understood by every California employee involved in the evaluation, recommendation, or selection of vendors, and that they have the appropriate tools and resources at

their disposal. Specific topics to be covered in 2013 market specific diversity training include:

- tw telecom's 2013 Annual Plan as submitted to the CPUC.
- Each market's WMDVBE goals and objectives as they relate to tw telecom's California and national Supplier Diversity programs.
- Training on key sections of GO156 and employee responsibility.
- WMDVBE Prime Contractor Outreach.
- CPUC Clearinghouse as a resource tool for validation of existing and location of potential diverse suppliers.
- tw telecom's 2013 Annual Plan as submitted to the GSA.
- Targeted diversity opportunities for underutilized businesses.
- Local Diversity Leaders and resources.

3. WMDVBE Prime Contractor Outreach.

tw telecom intends to strengthen its Supplier Diversity Outreach on a continuing basis in 2013. Some of the efforts the company plans to undertake include:

- Actively expanding the company's California source pools beyond its
 existing base of diverse suppliers and the national databases tw telecom
 has used in the past, including the CPUC Clearinghouse and the
 California Department of General Services (DGS) Supplier Diversity
 Website supplier databases.
- Continue participation in Supplier Diversity seminars, conferences, workshops, and renew membership(s) with supplier diversity councils in 2013.
- Continue supporting outreach efforts through contacts with minority and small business trade associations, and attendance at minority, veteranowned, service-disabled veteran-owned, minority-owned and womenowned business procurement conferences and trade fairs nationally and locally within key markets (i.e., California).
- Partner with the Federal Small Business Administration, or the California state counterpart, to seek alternative sources for supply or opportunities to further mature tw telecom's diversity program.

 Partner with an Ethnic Business Association or Ethnic Chamber to seek alternative sources for supply or opportunities to further mature tw telecom's diversity program.

4. Subcontracting Program.

tw telecom plans to continue strengthening its Tier 2 subcontracting program that encourages prime contractors to expand their utilization of WMDVBE subcontractors pursuant to GO156 §6.3. In particular, **tw telecom** will focus on prime contractors with whom the company has historically spent over \$500,000 for products and services and \$1,000,000 for construction services.

5. Employee Communication.

In 2013, *tw telecom* intends to continue to improve and enhance its internal Supplier Diversity web page to incorporate resources for employees to increase opportunities to locate diverse suppliers through use of internal bid lists, links to external sites (such as the CPUC and DGS Supplier Diversity website), and other informational tools specific to Supplier Diversity efforts. Additionally *tw telecom* is continuing to expand its Purchasing process and vendor communications through use of B2B solutions. As part of these efforts, *tw telecom* will seek opportunities to further develop means for vendors to update their records with current diversity status, and to streamline WMDVBE inclusion on bid opportunities.

6. *Contracting*.

tw telecom will continue to work to identify bid opportunities and include supplier diversity provisions in its RFIs, company Certification Forms (that enable the company to further identify opportunities and track the diverse status of its supplier base), and incorporate diversity requirements in its due diligence process. Due diligence requirements will be reinforced systematically within **tw telecom's** Financial and Procurement programs which, for orders greater than \$100k, will trigger a buyer review prior to final award of business for inclusion of diverse suppliers in the due diligence process.

7. Data Quality.

tw telecom will continue its efforts to update and maintain diverse supplier records by mailing, phoning and emailing suppliers and requesting updates to the company's Supplier Certification Form. New suppliers will continue to be required to complete a Supplier Certification Form and provide a current certification as part of the company's AP set-up process.

8. Supplier Certification.

tw telecom plans to train on and use the CPUC Clearinghouse, including the certification process, and encourage the company's existing diverse suppliers to submit for certification.

In order to meet its 2013 goals, *tw telecom* has established the following *external* activities:

- 1. Attending WMDVBE Business Opportunity Workshops, Minority Business Enterprise Seminars and Trade Fairs.
- 2. Contacting Diverse and Small business trade associations.
- 3. Contacting Diverse Business Development organizations.
- 4. Attending Minority, Women-owned, and other Diverse business/procurement conferences.
- 10.1.3 PLANS FOR RECRUITING WMDVBE SUPPLIERS OF PRODUCTS OR SERVICES WHERE WMDVBE UTILIZATION HAS BEEN LOW, SUCH AS LEGAL AND FINANCIAL SERVICES, FUEL PROCUREMENT, AND AREAS THAT ARE CONSIDERED HIGHLY TECHNICAL IN NATURE.
 - **tw telecom's** Supplier Diversity Team plans to continue to work with company departments that purchase products or services, in areas where WMDVBE utilization has been low, to help design procurement "packages" that permit and encourage the participation of WMDVBE concerns.
 - Directly or indirectly counsel WMDVBE suppliers and/or California employees on areas that present subcontracting opportunities.
- 10.1.4 PLANS FOR SEEKING AND OR RECRUITING WMDVBE SUPPLIERS OF PRODUCTS OR SERVICES IN ANY "EXCLUDED CATEGORY" OF PRODUCTS OR SERVICES WHICH HAS BEEN REMOVED FROM THE PROCUREMENT DOLLAR BASE USED TO SET GOALS BECAUSE OF THE ESTABLISHED UNAVAILABILITY OF WMDVBE SUPPLIERS. PLANS FOR SEEKING AND OR RECRUITING WMDVBE SUPPLIERS OF PRODUCTS OR SERVICES WHERE WMDVBE SUPPLIERS ARE CURRENTLY UNAVAILABLE

tw telecom presently has no plans to purchase or classify any products or services in an "excluded category" in 2013.

10.1.5 PLANS FOR ENCOURAGING BOTH PRIME CONTRACTORS AND GRANTEES TO ENGAGE WMDVBES IN SUBCONTRACTS IN ALL CATEGORIES WHICH PROVIDE SUBCONTRACTING OPPORTUNITIES.

tw telecom is committed to providing increased opportunities for diverse businesses, but in some cases the company is challenged by supply chain realities that may impede the ability to buy directly from WMDVBE suppliers. In those cases, **tw telecom** relies upon its prime

contractors' Tier 2 subcontracting activities to expand supplier diversity efforts. While *tw telecom* has focused its efforts on direct procurement from WMDVBE vendors, the company also requests that its Tier 2 providers utilize diverse suppliers in fulfillment of their contracts. This process is designed to augment existing efforts to increase meaningful business opportunities for diverse suppliers.

tw telecom remains committed to achieving the maximum practical utilization of WMDVBE vendors in all categories and sees Tier 2 purchases as an opportunity to expand business opportunities. It should be noted, however, that the award of subcontracts are at the sole discretion of the prime contractor.

10.1.6 PLANS FOR COMPLYING WITH THE WMDVBE PROGRAM GUIDELINES ESTABLISHED BY THE COMMISSION AS REQUIRED BY PUBLIC UTILITIES SECTION 8283(C). THE EXECUTIVE DIRECTOR'S OFFICE WILL BE RESPONSIBLE FOR DEVELOPING, PERIODICALLY REFINING, AND RECOMMENDING SUCH GUIDELINES FOR THE COMMISSION'S ADOPTION IN AN APPROPRIATE PROCEDURAL FORUM

Understood.
